APRIL IS CHILD ABUSE PREVENTION MONTH:Did you know: You cannot always predict who will be an abuser. Experience shows that most abuse is committed by someone who has gained the trust of a victim/survivor and his/her family. With child sexual abuse, sixty percent of the time the offender is a family friend, acquaintance, or another trusted adult in the victim/survivor’s life. Thirty percent of the time the offender is a family member. Sometimes an offender seems like the nicest person in the world, but this is often part of a process they use called “grooming” in order to gain the trust of the child they wish to abuse and the trust of his/her family.
